RE: Docket 99P-0033/CP 1

Commissioner Henney:

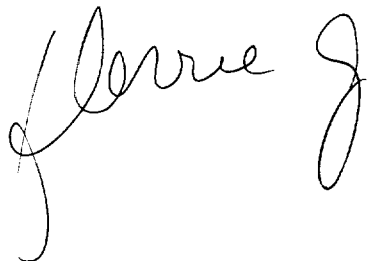

I was sickened to learn of the practice of feeding dead pigs, horses and other animals to OTHER farm animals is a normal way of life..the way things are done. Normal?? I wasn't aware that cows ate meat and the fact that they are being forced to eat and live on such an unnatural diet is nauseatingand I'm told very very dangerous!!!

I urge you to adopt the Humane Farming Associations petition recently presented to the FDA as the way farm animals must be fed and stop the way it had been done. We humans in turn will benefit along with the humane treatment of the animals. It absolutely goes hand in hoof.....

I look forward to learn that these changes have been approved by the FDA and have been implemented country-wide.

....for the animals,

florrie goldman
Santa Monica, CA
